Skills

Languages: Java, Python, C/C++, JavaScript, TypeScript, SQL

Technologies & Tools: Node.js, React.js, MySQL, MongoDB, RESTful APIs | Git, GitHub, Docker, Postman, Linux

Projects

Online Examination & Preparation Platform | *Full-Stack Web App* | *React, MongoDB, SQL*

November 2025

- Built a full-stack assessment platform supporting quiz creation, submissions, and evaluation via REST APIs
- Implemented role-based access control for secure user management
- Designed relational database schemas for scalable and efficient data handling

PULSE | Wearable Emergency Alert Device | *ESP32, SIM800L (GSM), IoT*

July 2025

- Developed an IoT-based wearable system to detect abnormal pulse and motion events
- Integrated ESP32 with GSM module (SIM800L) for real-time emergency alerts
- Ensured reliable sensor-to-alert communication under constrained conditions

Veronica | Personal AI Assistant | *Python, Automation Scripts, Google cloud Console*

January 2025

- Built a modular AI assistant for task automation and system-level control
- Implemented command execution pipelines for reminders and information retrieval
- Enabled device interaction through scripts and API integrations

Work Experience

Institution of Engineers (India) - IEI Student Chapter

November 2025 – Present

- Led creation and management of technical and non-technical content for a community across multiple platforms
- Produced event promotions, announcements, and social media content to drive participation and awareness
- Coordinated with core team members to ensure consistent messaging and timely delivery of communications
- Improved engagement and visibility of club activities through structured and audience-focused content strategies

Education

Chitkara University

Aug 2024 – 2028

B.E. in Computer Science and Engineering

Punjab, India
